

First introduced in January 2006 e-tape is now sold globally with ever increasing success. The secret is the small core, and the big roll length – simple, but ingenious.

## Features

- Big 150M roll length, means less roll changes and downtime
- Environmental benefit – nearly 60% saving in packaging waste
- Premium adhesive systems, solvent, hotmelt and high performance acrylic grades
- Plain, custom printed and standard texts
- Superb ergonomically designed tape dispenser
