

fastfil™

biofil™

Free flowing, lightweight and reusable, with an environmentally friendly option available from stock, this **BondMark™** approved product provides excellent protection for the most awkward, difficult and fragile items.

Features

- Fast flowing, easy to use
- Save on packaging waste
- Reusable
- Biofil is 100% antistatic, biodegradable, and conforms to EN-13432
- 'S' shape, the proven interlocking characteristic inhibits product migrating in box
- Fully integrated filling systems available
- The only **BondMark™** accredited voidfill
